RGK Bespoke

RGK are pleased to introduce our bi-weekly dealer information update

PRODUCT NEWS

Spinergy Wheels

All future chair orders will be supplied as follows:
Camber 0 - 7 degree daily use hub
Camber 8 degrees or more sport use hub.

Carbon Fibre

Our engineering director, Greg Eden, is pleased to announce that RGK are now able to offer carbon fibre as an option for some sideguards and footrest covers. The use of this material gives weight saving over aluminium whilst maintaining rigidity.

Titanium Hand Rims

Recent experiences have shown titanium hand rims to not be ideally suited to contact sport (basketball) use. The thinner wall of the titanium rim gives it an increased risk of denting and cracking, hard anodised aluminium give a far longer life.

New carbon fibre wheels from Karma

Now available on all RGK daily use chairs, these 24" wheels are available in a range of different finish designs. Ask for pricing in your area.

Dealer Pack & Price Review

You should have all now received a brand new dealer pack which contains new order forms and pricing for all chairs, extra cost options and replacement parts. If you do not have one please fax us on +44 (0)1543 670088.

www.rgklife.com

The website is currently under total re-design and when finished will include a secure dealer information area accessed by a password and login name, watch this space for further news.
